Received By Ministry/Department	Prime Minister's Office
Grievance Description	
<p>Subject: Transformative Digital Governance for India: A Citizen's Plan to Eliminate Corruption & Generate Mass Employment</p> <p>Hon'ble Prime Minister's Office,</p> <p>This attached document presents a citizen-driven vision for "One Government, One Digital Platform," a comprehensive digital transformation strategy inspired by the ground-level challenges of corruption in states like Bihar. Leveraging technologies like Microsoft Dynamics 365, Power Platform, and AI, this plan offers a dual impact:</p> <p>Rapid Corruption Elimination: Achieve measurable results within six months by digitizing high-impact services (certificates, land records, welfare schemes), implementing AI-powered fraud detection, and ensuring transparent, end-to-end digital audit trails.</p> <p>Massive Employment Generation: Attract leading IT consultancies (e.g., Big 4) to establish Offshore Development Centers (ODCs) across districts, committing to a 50% local employment clause for Bihar citizens, and fostering a self-sustaining ancillary economy.</p> <p>This scalable model promises significant cost savings for the government, enhanced public service delivery, and a powerful boost to local economies, aligning directly with the national 'Digital India' and 'Ease of Living' objectives.</p> <p>Given the profound potential of this initiative to address critical national challenges, I respectfully request a brief opportunity to present this detailed plan directly to the Hon'ble Prime Minister or his designated senior officials. I am confident it offers a tangible path towards a truly corruption-free and prosperous India.</p>
